FUNCTIONS OF THE STATE LIBRARY COMMISSION

Section 181.021

R.S. Mo. 1955 Suppl.

The COMMISSION shall:

1. Direct the survey of services given by libraries which may be established or assisted under any law for state grants-in-aid to libraries;
2. Further the coordination of library services furnished by the state with those of local libraries and other educational agencies;
3. Publish an annual report showing conditions and progress of public library service in Missouri;
4. Furnish information and counsel as to the best means of establishing and maintaining libraries, the selection of books, cataloging, and other details of library management; provide assistance in organizing libraries or improving service given by them and assist library services in state institutions;
5. Receive and administer grants from the United States under any act of congress for public libraries, or other types of library service, and make rules and regulations in connection with such grants as may be necessary or required on the administration thereof;
6. Receive gifts of money, books or other property which may be used or held in trust for the purposes given.
7. Administer state grants-in-aid and encourage local support for the betterment of local library service and generally promote an effective state-wide public library system.
8. Purchase library materials and circulate the material by all means necessary, including the use of bookmobiles, within the state among individuals, communities, libraries, schools, charitable and state institutions, state departments and other organizations approved by the state library commission.

HISTORICAL SKETCH OF MISSOURI STATE LIBRARY

The Missouri Library Commission, the forerunner of the present Missouri State Library, was organized in 1907 "to give advice to all schools, free and other public libraries, and to all communities which may propose to establish them," to circulate traveling libraries within the state, and to have charge of the library of the General Assembly.

By provision of a Legislative Act of the Sixty-Third General Assembly in 1946, the name, Missouri Library Commission was changed to Missouri State Library. With the change in name also came a redefinition of the functions of the agency and the State Library was charged with the responsibility of setting up services in four major fields of library activity, public libraries and adult education, school library service, institutional library service and document service.

The Eighty-Fourth General Assembly passed an act in 1955 that changed the legal structure of the State Library. This law changed the State Library Advisory Board into the State Library Commission. It raised the number of governor appointees from two to four and allowed payment of a per diem to each appointed Commissioner. It dropped the president of the State Board of Education from membership on the Commission, but retained the Commissioner of Education and the Librarian for the State University. The new law provided for the Commission's appointment of the State Librarian rather than by the State Board of Education. Finally, the new law specifically fixed the responsibility for operating the State Library upon the newly created Commission.

STATE AID TO PUBLIC LIBRARIES IN MISSOURI

State Aid to public libraries of Missouri is intended to supplement the local incomes of libraries so that a closer approach to at least a minimum quality of library service can be given by each local library.

The first fifty per cent of the State Aid monies is allocated on a per capita basis to all tax-supported libraries which have a one mill library tax, or receive \$1.00 per capita in tax income. The second portion of the grant, forty per cent, is used to equalize the income of those county and regional libraries which have a one mill tax, but receive less than \$1.00 per capita in library tax income. The remaining portion of the grant, ten per cent, is used to encourage the development of library service through establishment grants to newly formed county and regional library units.

SERVICES AND DEPARTMENTS

Advisory Services

The public library consultants are the two representatives of the State Library who deal directly with the librarians, library boards, civic and educational leaders of the state in the consideration of their library problems. These extension librarians assist in organizing new libraries, in planning new library buildings and in renovating old quarters, in weeding obsolete books, planning library service programs, conducting workshops and preparing suggested buying guides. They are always at the service of any individual or group interested in organizing or improving library service.

Reference and Circulation

The State Library serves as a public library for approximately 22% of the residents of the state, who live in areas where local public libraries do not exist. Direct service is provided by parcel post, freight and express trucks to individuals, schools, clubs and communities without libraries. Regional, county and municipal libraries supplement their book collections either by direct loans from the State Library, or through an inter-library loan system in which the State Library acts as a clearing house in supplying all missing bibliographic data. Answers to reference questions are provided either by mail or telephone.

Besides books and magazines, the State Library has made available an increasing number of non-book materials. Mounted reproductions of famous art masterpieces and pictures of sculpture are lent to all those who are interested in developing their appreciation of the aesthetic. Phonograph records with the best in classical and semi-classical music on long-playing records are circulated on the same basis as books. Literature and foreign languages are also available on records. Projected books are sent to immobilized bed patients, and documentary filmstrips are furnished to clubs and schools. In the coming years these services will be further expanded to provide for the cultural development and enjoyment of Missouri's citizens.

State Library Bookmobile Service

During the last year, the State Library's two bookmobiles have been used to give a demonstration of regional library service to four of Missouri's counties which do not have county-wide library service. The demonstrations were conducted this year in two regions. The Central Missouri Region was composed of Johnson and Lafayette Counties. The Southwest Region was made up of Jasper and Barton Counties. The bookmobiles made regular stops at all of the schools and other public meeting places in the regions, distributing books, pamphlets, phonograph records, mounted pictures, viewmaster reels and educational motion pictures.

Since 1947 the State Library bookmobiles have given a demonstration of library service to 49 counties. Several counties have since established their own library service, offering local residents the same facilities that were demonstrated by the State Library for the dissemination of education, information and recreational materials.

PUBLIC AND SUBSCRIPTION-TYPE LIBRARIES 1955-56

(CAPITAL letters indicate Tax-Supported Libraries. Small letters indicate Non-Tax-Supported Libraries.)
 (*Member of Missouri Libraries Film Cooperative. —> Municipal library contracting for joint service with county library.)

NOTE: The figures given below are taken from reports made by local librarians and are unverified for accuracy by the State Library.
 Tax rate in mills denotes library tax voted by the people and/or City Council. Letter "A" indicates local appropriation from tax monies for the library in lieu of or in addition to the voted library tax.

The fiscal year for county libraries has changed from May 1-April 30 to January 1-December 31. Therefore, in some cases, the statistics reported by county and regional libraries may overlap some of the figures reported for the previous fiscal year.

PUBLIC AND SUBSCRIPTION-TYPE LIBRARIES 1955-1956

(CAPITAL letters indicate Tax-Supported Libraries. Small letters indicate Non-Tax-Supported Libraries.)
(*Member of Missouri Libraries Film Cooperative. → Municipal library contracting for joint service with county library.)

NOTE: The figures given below are taken from reports made by local librarians and are unverified for accuracy by the State Library.
Tax rate in mills denotes library tax voted by the people and/or City Council. Letter "A" indicates local appropriation from tax monies for the library in lieu of or in addition to the voted library tax.

The fiscal year for county libraries has changed from May 1-April 30 to January 1-December 31. Therefore, in some cases, the statistics reported by county and regional libraries may overlap some of the figures reported for the previous fiscal year.
